IT'S TIME FOR REAL HEROES TO TAKE BACK OUR PUBLIC TRANSIT SYSTEM. JOIN US.

**MBTA FINANCE COMMITTEE ★ TUESDAY, MARCH 27
11 AM ★ 10 PARK PLAZA ★ SUITE 3830 ★ BOSTON**

On March 27, the Fast Five superheroes will **face off with the MBTA** and implement solutions to stop proposed fare hikes and service cuts at the Finance Committee meeting. Committee members will be approving the final proposal before the board vote.

Despite thousands of riders testifying against fare increases and service cuts, and real solutions

being offered, officials have refused to take this burden off riders. **Time is running out for us to Save the T!**

The combined powers of the Fast Five, ranging from surplus snow removal money to Massport assuming ferry operations, will **raise** an estimated **\$224.6 million** in revenue. We also need long-term fixes to the T's broken funding system that include the

removal of **unconscionable Big Dig debt**.

The **failure** of our governor, Legislature and MassDOT **to invest in a sustainable public transit system** will bring dark days upon our Commonwealth, giving free rein to arch nemesis Debt Vader to continue wreaking havoc on the MBTA and transit-dependent communities.
